Faith Etornam Gbadegbe

Accra, Ghana | +233 541354000 | faithgbadegbe1@gmail.com | linkedin.com/in/faith-etornam

CAREER SUMMARY

I am a dedicated Backend Developer with a strong foundation in Python and web frameworks, specializing in building scalable and innovative software solutions. With experience in developing multi-hostel management systems and AI-integrated bridges, I am eager to contribute my technical expertise to a forward-thinking organization that values teamwork and continuous learning.

EDUCATION

University of Mines And Technology   **Tarkwa, Ghana**
BSC Computer Science And Engineering   Currently

African Leadership Experience (ALX)   **Accra, Ghana**
Software Engineering (Backend Engineering)   January, 2026

WORK EXPERIENCE

Frontend Developer Intern   Remote, Ghana
Ideation Axis, Ghana   September 2024 - November 2024

- Collaborated with a team to design and build Crop Circle (A farmer and consumer web application)
- Coded some UI components of Crop Circle
- Solved complex problems using the latest in React.js, Axios, and web technologies.

Co-Founder @ Hiraki DIgital   Remote, Ghana
Hiraki, Ghana   December 2025 - Present
- Optimizing website for SEO reach
- Worked at an independent level, while also serving as an effective collaborator.
- Serving as a Software Engineer for Hiraki Digital since it is a startup

Backend Developer   Remote, Ghana
Wikie Projects, Ghana   September 2024 – November 2024
- Worked with Node.js/Express.js for creating API endpoints
- Explored the importance of RESTful APIs

PROJECTS

- **Built a robust social media API using modern frameworks (Django)**
- **Built a responsive game discovery web application which allows searching, filtering etc**

- Created a RESTful API for a multi-hostel management system which implements role-based access (student, admin, and hostel manager)
- Built an e-commerce RESTful API with features like product listings, shopping carts, sorting and searching, orders, etc.
